

Energy Efficiency Programs Bulletin

VOLUME 4, ISSUE 3 | Spring 2015

Summer Building Shutdown

Spring Break may be over, but summertime is just around the corner, providing an opportunity for schools to save more energy if they shut down their facility the right way. Check out the link below for helpful tips and best practices:

Project Spotlight-Pecos Barstow Toyah ISD

Pecos Barstow Toyah ISD is planning to complete lighting and HVAC upgrades throughout their district over the summer of 2015. TNMP's energy efficiency team has been involved in promoting energy efficiency to PBTISD for several years now and we are excited to report this new development for the school district. PBTISD is completing these projects through an energy services contract with Entegral Solutions. The proposed upgrades proved to be cost effective for PBTISD, and the district is hoping to use additional electric bill savings and TNMP incentives to invest in additional energy saving opportunities such as ENERGY STAR rated cool roofing systems. The district will be installing DLC-approved LED fixtures to replace fluorescent lighting and upgrading roof top HVAC units to high efficiency systems. Energy savings for all of the projects is estimated at over 1,000,000 kWh per year over the life of the new equipment.

SCORE/CitySmart Lite

For customers that are prepared to and capable of identifying, specifying, and pursuing energy efficiency projects on their own, there are higher cash incentives available through TNMP's SCORE/CitySmart Lite Program. The City of Lewisville has opted into this program for 2015 and will receive (based on its current year projects) an estimated 13% higher incentives compared to the traditional SCORE/CitySmart program. Congratulations to internal services manager Francis Mascarenhas for helping the city to achieve energy saving success year-over-year.

Texas-New Mexico Power offers a portfolio of commercial energy efficiency programs.

The SCORE® Program provides viable energy optimization for school districts, colleges and universities. Designed to educate institutions on energy management and encourage investment in energy efficiency, this program helps partners minimize the impact of volatile energy costs, ease budget pressures, improve infrastructure and optimize learning environments for students.

The CitySmart® Program helps local government entities enhance energy efficiency, lower operating costs, improve air and environmental quality, and meet legislative and regulatory requirements.

Similar to SCORE and CitySmart, the TNMP Commercial Solutions Program provides technical and financial support to help commercial and industrial organizations identify and implement energy efficiency upgrade projects.

The Open Program for small businesses program targets commercial facilities below 100kW in demand usage to enable them to participate in energy saving retrofits.

For more information about the SCORE, CitySmart, Commercial Solutions and Open programs, contact TNMP Project Manager Stefani Case at (214) 222-4174 or stefani.case@tnmp.com.

The programs are sponsored by TNMP and administered by CLEARResult. You can reach CLEARResult at (877) 338-8667 or tnmp@CLEARResult.com.

PARTNER SUCCESS

The following partners were awarded for energy efficiency savings

Advantage BMW of

Clear Lake
\$19,399

Bosque County
\$1,790

City of League City
\$824

City of Lewisville
\$380

Grace Baptist Church
\$371

Leonard ISD
\$3,704

Nocona ISD
\$2,074

Office Depot, Inc.
\$1,891

PetSmart, Inc.
\$552

Walmart, Inc.
\$3,637

WinCo Foods, LLC
\$2,015

Benchmarking & Energy Master Planning Services: What They Are and Who Makes a Good Candidate

Benchmarking is not just a measuring stick for student achievement. It's for buildings too! TNMP offers energy performance benchmarking to help schools and cities to set a baseline and create energy saving objectives. TNMP's benchmarking process enables partners to evaluate current performance of facilities from an energy efficiency perspective. Your buildings are compared to similar buildings not only within your organization but also to similar building types across the state and country. This is a great tool to help prioritize investments across a portfolio of buildings.

One example of a school that has taken advantage of the benchmarking process is Alvin ISD. In order to obtain a clearer picture of energy use at each of his schools, Alvin ISD Energy Manager Josh Campbell had the SCORE program provide a new benchmarking report. The details of this report were used during a subsequent Energy Master Planning Workshop to guide decision makers from district maintenance and operations on which facilities to target for energy efficiency improvements. The workshop discussions led Alvin ISD to create an energy master plan that lays out the district's energy management goals and best practices.

For more information, contact your TNMP program consultant or reach us at www.tnmpefficiency.com.

Texas City ISD Check Presentation

On February 10th, the TNMP SCORE program presented the Texas City ISD Board of Trustees with an incentive check of \$9,590 for energy efficiency measures in a new middle school. Trustees welcomed the recognition and thanked the district's Director of Facilities and Planning, Jack Haralson, for his work with the program.

Read more about the Check Presentation in the Texas City ISD Board Report: <http://bit.do/4noN>

Any participant in the TNMP energy efficiency program can take advantage of a check presentation – simply contact your program representative and they will make it happen!

City of Lewisville Check Presentation

On April 20, the City of Lewisville was presented with an incentive check for energy efficiency improvements made at various Lewisville ISD buildings. The city participated in the TNMP SCORE Lite program and received a check for \$20,105.55 at the Lewisville City Council meeting.

Pictured left to right are: City Councilman Leroy Vaughn, Barry Bonds (TNMP Community Relations Manager), Stefani Case (TNMP Energy Efficiency Program Manager), Lewisville Mayor Dean Ueckert, Warren Durham (Program Consultant for TNMP) Francis Mascarenhas (Lewisville Facilities Manager).

Congratulations Partners!
