VOLUME 4, ISSUE 2 | Winter 2015

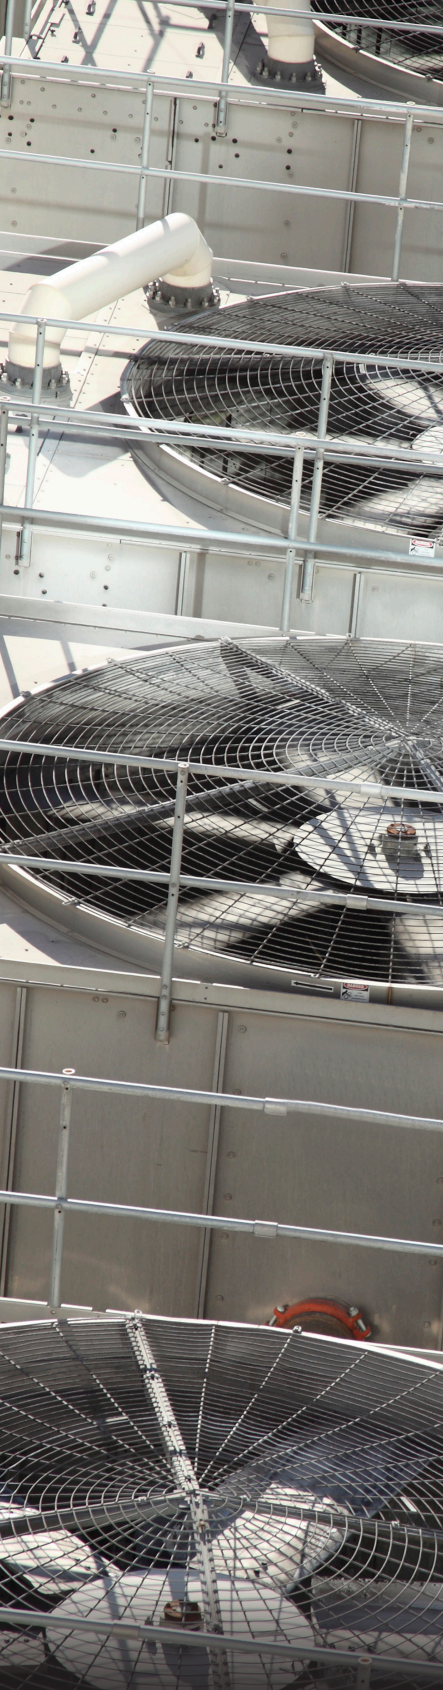

Updated Incentive Rates for 2015!

Happy New Year and welcome back for another great year of energy efficiency incentives and services from TNMP. We are excited to announce updated incentive rates for commercial customers and facilities in the TNMP service area. As always, you can visit www.tnmp efficiency.com for the latest program documents, savings calculators and incentive rates.

For Commercial Solutions (most medium and large sized commercial facilities), all incentives remained the same except for two categories: LED Lighting and Other/Custom. Both increased to \$150/kW + \$0.03/kWh.

SCORE®/CitySmart®: Incentive rates now include an energy saving component, i.e. \$0.02/kWh saved, for all program tracks. This change allows the program to work with customers in these markets on a wider range of measures, including those focused on “off-peak” energy savings.

- **SCORE/CitySmart**, comprised of all K-12, higher education, and local government facilities: **\$150/kW + \$0.02/kWh**
- **SCORE/CitySmart Lite**, comprised of select SCORE/CitySmart participants who elect to receive higher cash incentives in exchange for lower levels of program support/services: **\$175/kW + \$0.02/kWh**
- **Small SCORE**, comprised of select K-12 with less than 2,000 students: **\$250/kW + \$0.02/kWh**

Texas-New Mexico Power offers a portfolio of commercial energy efficiency programs.

The SCORE® Program provides viable energy optimization for school districts, colleges and universities. Designed to educate institutions on energy management and encourage investment in energy efficiency, this program helps partners minimize the impact of volatile energy costs, ease budget pressures, improve infrastructure and optimize learning environments for students.

The CitySmart® Program helps local government entities enhance energy efficiency, lower operating costs, improve air and environmental quality, and meet legislative and regulatory requirements.

Similar to SCORE and CitySmart, the TNMP Commercial Solutions Program provides technical and financial support to help commercial and industrial organizations identify and implement energy efficiency upgrade projects.

The Open Program for small businesses program targets commercial facilities below 100kW in demand usage to enable them to participate in energy saving retrofits.

For more information about the SCORE, CitySmart, Commercial Solutions and Open programs, contact TNMP Project Manager Stefani Case at (214) 222-4174 or stefani.case@tnmp.com.

The programs are sponsored by TNMP and administered by CLEARResult. You can reach CLEARResult at (877) 338-8667 or tnmp@CLEARResult.com.

PARTNER SUCCESS

The following partners were awarded for energy efficiency savings

Alvin ISD
\$7,500

BroadTech
\$2,364

Christian Community Action
\$1,362

City of Glen Rose
\$1,624

Clear Creek ISD
\$9,600

College of the Mainland
\$7,350

Glen Rose First UMC
\$2,226

Heights Baptist Church Alvin
\$3,406

Lewisville Christian School
\$11,086

Lewisville ISD
\$3,604

Murphy USA
\$6,578

Fort Stockton ISD
\$15,370

Reeves County
\$12,040

Texas City ISD
\$9,590

Tioga ISD
\$1,050

Tom Bean ISD
\$3,377

University of Texas Medical Branch
\$4,803

Congratulations Partners!

Request Your Incentive Check Presentation Today

Did your organization or company receive an incentive check from TNMP in 2014? Wouldn't that look good on a "big check" with you and your boss standing behind it? Please contact your program representative to schedule your incentive check presentation today. Availability is on a first-come, first-served basis, so don't wait!

Help Us Help Your Service Providers

One way we can help you identify, design and install more energy efficient projects is by working directly with your partners, such as lighting and HVAC contractors. Financial incentives from the program can help contractors sell bigger and/or more projects. No matter what, customers save more energy if service providers know how the utility programs work and what is available. Please let us know who your main contractors are for lighting and HVAC.

Spring Will Be Here Soon

Spring is the best time to assess your HVAC equipment and tune them up for optimum summertime performance. Did you know that TNMP will pay HVAC contractors for completing a comprehensive tune-up on your HVAC equipment (excludes chilled water equipment)? Please let your program representative know if your team could use some help with preventative maintenance.

Project Spotlight-Lewisville Christian School

Lewisville Christian realized the benefits from TNMP's energy efficiency services, saving \$25,000 annually by replacing their 900 T12 fixtures with LED lighting, as well as replacing their 100-watt incandescent bulbs with 13-watt bulbs. The school's incentive check was an added bonus, totaling \$11,086.
