

We're excited to bring you the latest from the **TNMP High-Performance Homes (HPH) Program!** As fall approaches, we're rolling out a fresh collection of tools, updates, and opportunities to help you maximize your impact and finish the year strong. Whether you're just getting started or have been with us all year, there's something new for everyone.

There's still plenty of time to take advantage of program incentives, especially for all-electric homes featuring heat pumps and heat pump water heaters. If you haven't tapped into these benefits yet, now's a great time to connect with the team and explore how your projects can qualify.

To keep you informed and inspired, we've curated new resources and highlighted upcoming industry events to support your success this season and beyond. **As always, we're here to help.**

Thank you for your continued partnership—we're looking forward to a strong finish to the year!

Marketing Updates

We are spreading the word on social media! Help us amplify the message!

Share TNMP's content to boost community participation and attract more homeowners to build with you!

Follow TNMP

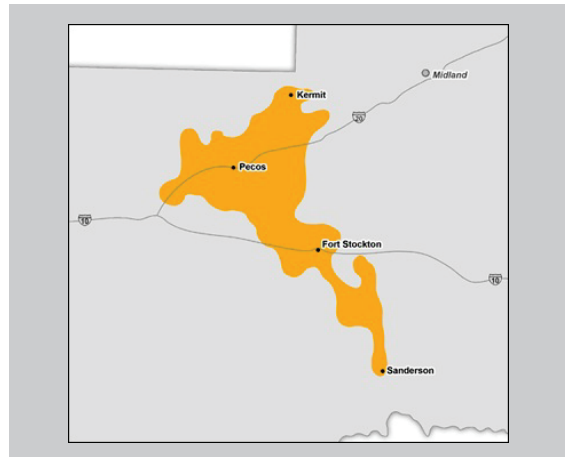

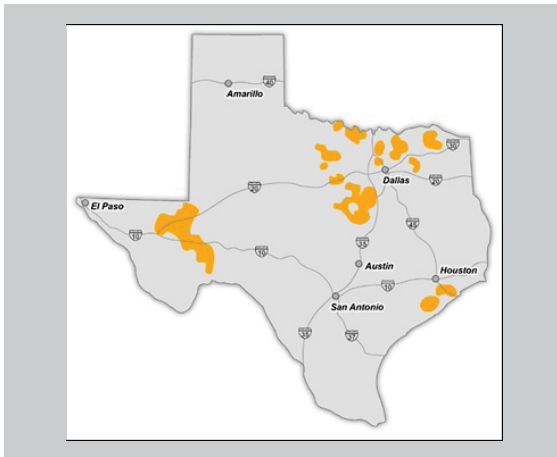

Are you a homebuilder in West Texas?

If you are building or inspecting homes in West Texas—specifically in Kermit, Pecos, Fort Stockton, or Sanderson, you may be eligible to participate in the TNMP HPH Program!

To get started, download the [Program Guide](#) and review the participation requirements. For more information, visit the [TNMP Energy Efficiency website](#) or reach out to the program team to discuss your eligibility and get your questions answered.

Already a participating builder?

Take a moment to review your listing on the [Find A Homebuilder](#) tool to ensure your information is current. If any updates are needed, please send the revised details to any member of the program team listed below.

Texas Energy Efficiency Learning Center

As a participating contractor, you have **FREE** access to the Energy Efficiency Learning Center (EELC).

The EELC is an online distance-learning portal

where contractors can login to take trainings on Sales and Marketing, Technical Topics, and Best Practices. Contractors are also able to view recorded webinars, demonstrations, and other program related training materials.

Many courses can also be used to meet Continuing Education Unit (CEU) requirements for common industry certifications, including NATE, RESNET, and BPI. All courses eligible for CEUs have a short exam and require an 80% or higher score to pass. Once you click on Catalog, you can filter courses under the "CEU Accredited" category.

Here are some examples of CEU accredited sales & marketing courses that could be valuable to you:

- Master Marketing
- Master Customer Service
- Customer Personality Types

Heat Pump Training Available

We've added brand-new technical training modules to the EELC!

Explore our in-depth courses on heat pumps, developed and authorized by Lennox.

These expert-led modules are designed to sharpen your skills and keep you ahead in the world of energy efficiency.

Meet the Program Team

Mariah joined the account in 2024 to support a wide range of marketing efforts. With a strong background in sustainability initiatives and energy efficiency programs, she brings valuable

experience across both residential and commercial utility sectors. Her strategic insights, passion for impactful communication, and eye for creative design have helped drive stronger engagement across key initiatives.

Mariah loves traveling the world with her four kids, blasting classic 70s / 80s rock, and soaking up everything the outdoors has to offer. Whether she's catching rays at the lake or exploring a new city, she brings the same energy and curiosity that she brings to her work.
