

# COMPASS

Commercial Partners Achieving Specialized Solutions

## NO-COST SUPPORT TO HELP TNMP BUSINESS CUSTOMERS SAVE ENERGY

Qualifying customers receive no-cost energy assessments, customer support and cash incentives for high-efficiency upgrades during building retrofit and new construction projects. It's a fast and easy application process that maximizes your time and energy savings.

### Programs

#### COMPASS for Small Business

Tailor-made solutions to help small businesses reduce their energy use and improve their bottom lines.

#### COMPASS for Large Commercial

Cash incentives for energy efficient improvements in new construction and retrofit applications.

#### COMPASS for Schools/Government

Tools, service, and incentives to reduce peak energy demand and energy usage.

## TNMP ENERGY EFFICIENCY PROGRAM DETAILS

TNMP offers a fast and easy way for qualified customers to apply for and receive no-cost support to plan an energy efficiency project and to receive cash incentives to help pay for it. Every business, building and school that is a TNMP commercial customer is eligible to apply.

### Available Measures

Incentives are available for many measures, including:

- Energy efficient lighting
- Lighting controls
- Variable speed drives
- Heat pump water heaters
- ENERGY STAR® appliances
- Building envelope improvements
- Refrigeration upgrades
- Energy management systems
- Energy recovery units
- AC tune ups
- Air source heat pumps
- Commercial food service
- Custom efficiency projects

Please reach out if you're considering a measure that isn't listed.

The final incentive amount is calculated based on the annual energy savings identified—\$400 per kilowatt saved or \$0.105 per kilowatt hour saved. Custom efficiency projects can qualify but may result in a varied incentive value. Incentive payment values are subject to change at the program's discretion. TNMP reserves the right to cap incentives to a project and/or customer on an annual basis.
